**“Because Dr. William S. Halsted lived, the world is a better, a safer, a happier place in which to be ... He was one of the few men who really count. Quiet, simple, unostentatious except in the medical world, where he towered, the full scale of his genius and the tremendous extent and value of his services to mankind were neither generally known nor generally appreciated.”**

Editorial in the *Baltimore Sun* from September 8, 1922
